BUG REPORT

EchoGPT — Chrome Extension & Android App

Functionality Testing — Software QA Internship Assignment

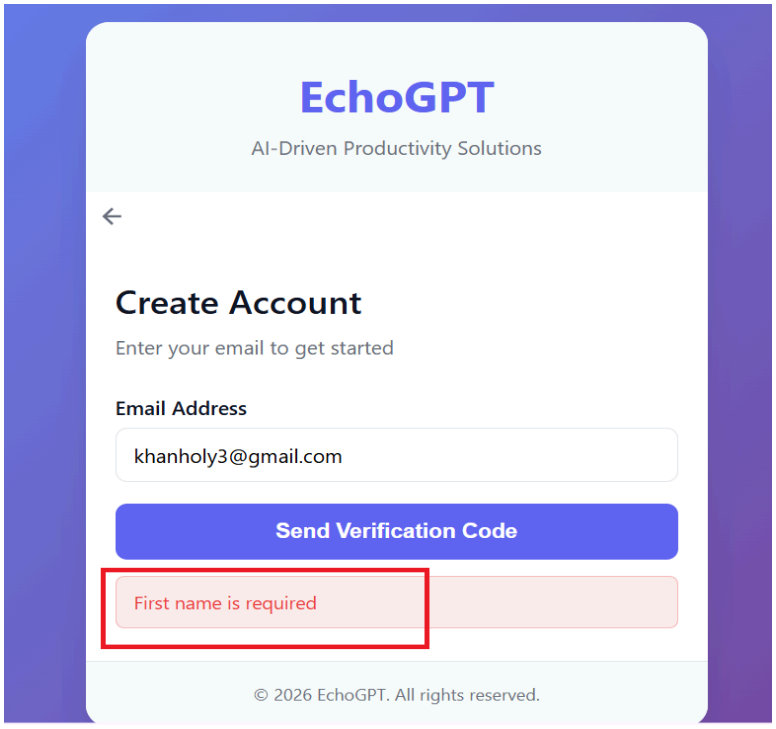

Tester: Tanjila Akter Khanam

Test Date: 27.09.2026

Environment: Windows 11 (64-Bit), Google Chrome (Version 150.0.7871.187)

Total Issues Reported: 11

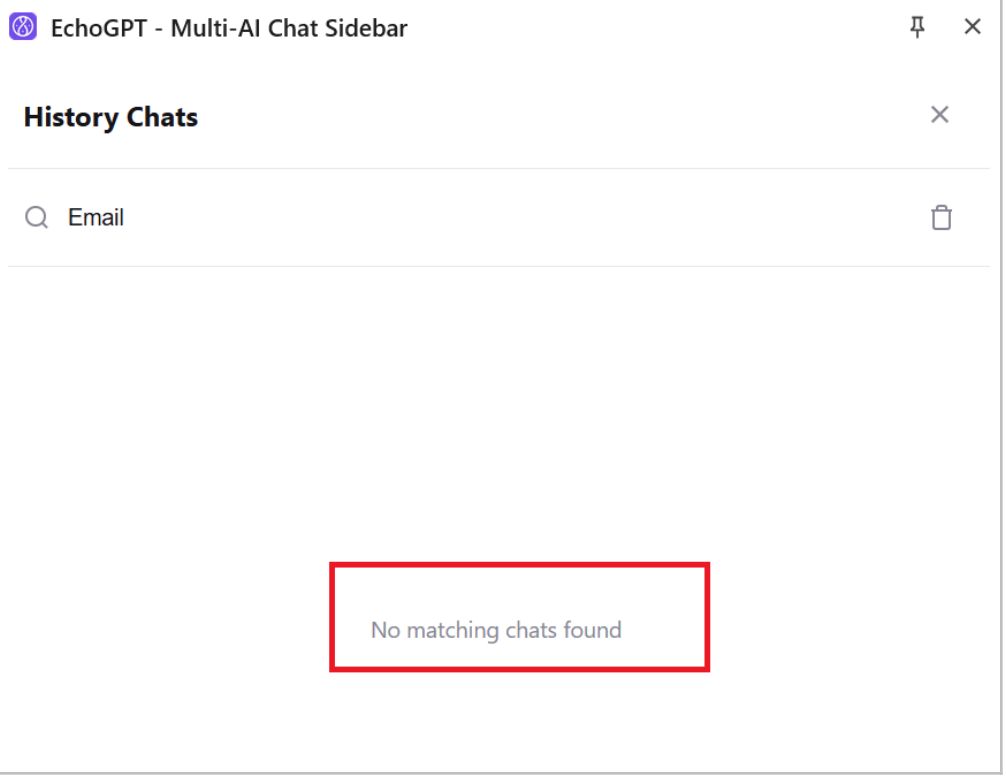

BUG-01 (Chrome Extension)

Title	**Incorrect validation error "First name is required" is shown during the email verification step.**
Description	During the Create Account flow, entering a valid email and tapping "Send Verification Code" triggers the error "First name is required," even though no First Name field exists on this screen.
Steps to Reproduce	1. Open the EchoGPT extension (logged out) 2. Tap "Create Account" 3. Enter a valid email address in the Email field 4. Tap "Send Verification Code"
Expected Result	Verification code should be sent to the entered email, or a relevant validation error related to the email field should appear.
Actual Result	Error "First name is required" appeared, even though no First Name field exists on this screen.
Severity	**High**
Priority	**High**
Environment	Windows 11 (64-Bit), Google Chrome (Version 150.0.7871.187)
Screenshot	

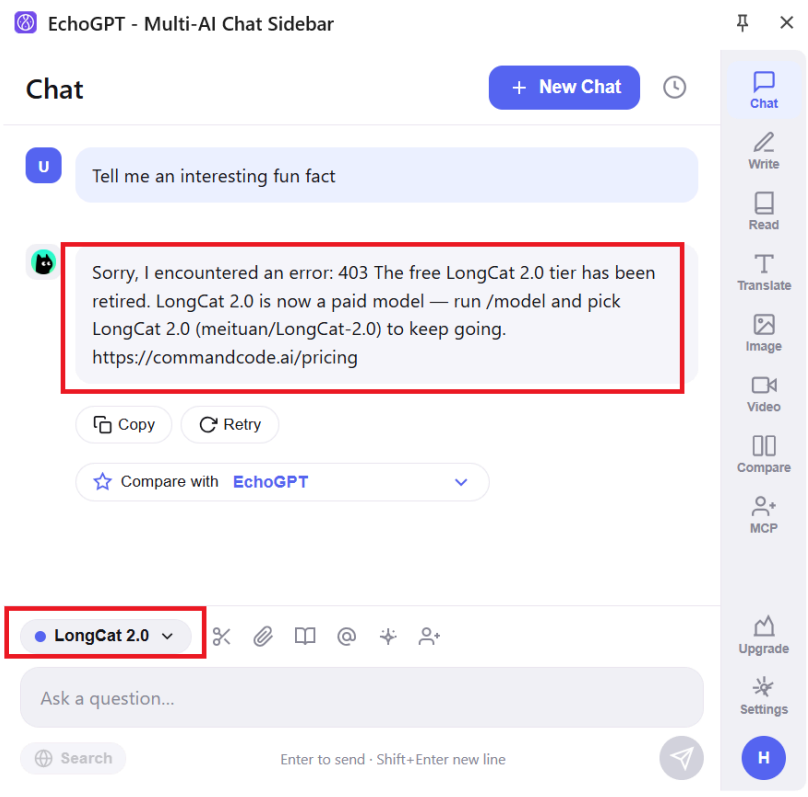

BUG-02 (Chrome Extension)

Title	**"Continue with Google" logs in with previously used Gmail account instead of currently active Chrome account**
Description	With a different Gmail account active in Chrome, clicking "Continue with Google" opens an account selection window that closes within ~1 second, automatically logging in with the previously used Gmail account instead of the currently active one.
Steps to Reproduce	1. Sign in to Chrome with a new/different Gmail account 2. Open the extension (previously logged in with another Gmail account) 3. Go to Settings and Logout 4. Welcome page appears 5. Click "Continue with Google" 6. A new window opens for Google account selection
Expected Result	Account selection window should stay open and let the user choose/login with the currently active Chrome Gmail account.
Actual Result	The account selection window closes within ~1 second and automatically logs in with the previously used Gmail account, not the currently active Chrome account.
Severity	**High**
Priority	**High**
Environment	Windows 11 (64-Bit), Google Chrome (Version 150.0.7871.187)

BUG-03 (Chrome Extension)

Title	**History search returns "No chat found" for existing keyword**
Description	Searching the chat history with a keyword that exists in a previous conversation returns "No chat found" instead of the matching result.
Steps to Reproduce	1. Tap the History (clock) icon next to "New Chat" 2. Tap the search bar 3. Type a keyword that exists in a previous conversation
Expected Result	Matching conversations should be filtered and displayed based on the search keyword.
Actual Result	"No chat found" was displayed, even though the conversation containing that keyword existed.
Severity	**High**
Priority	**High**
Environment	Windows 11 (64-Bit), Google Chrome (Version 150.0.7871.187)
Screenshot	

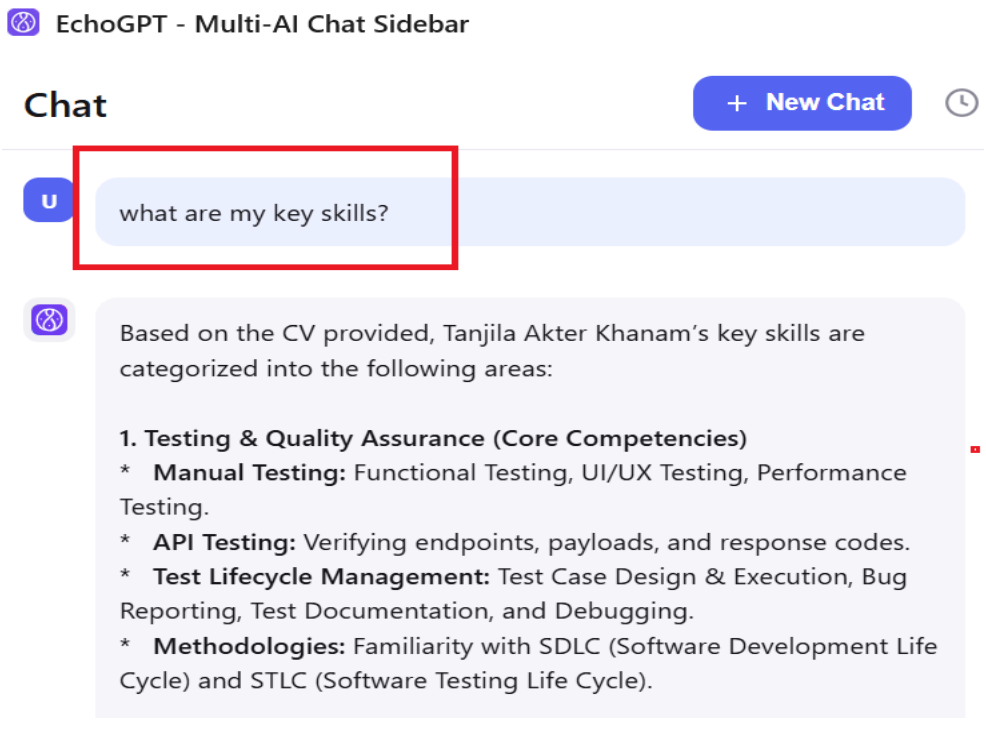

BUG-04 (Chrome Extension)

Title	**Model labeled "Free" (LongCat 2.0) requires payment when used**
Description	The model selector shows "LongCat 2.0" labeled as Free, but sending a message with it triggers an error stating the free tier has been retired and the model is now paid.
Steps to Reproduce	1. Open the model selector 2. Select "LongCat 2.0" (labeled Free) 3. Send a message using this model
Expected Result	Since the model is labeled "Free," the message should send successfully without requiring payment.
Actual Result	Error appeared stating the free tier for LongCat 2.0 has been retired and it is now a paid model.
Severity	**Medium**
Priority	**Medium**
Environment	Windows 11 (64-Bit), Google Chrome (Version 150.0.7871.187)
Screenshot	

BUG-05 (Chrome Extension)

Title	**"Sign in with Twitter" button is not clickable**
Description	Tapping "Sign in with Twitter" in the Upgrade > Sign In section produces no response; the Twitter authentication flow does not start.
Steps to Reproduce	1. Open the EchoGPT extension 2. Tap "Upgrade" from the right-side vertical menu 3. Tap "Sign In" 4. Tap "Sign in with Twitter"
Expected Result	"Sign in with Twitter" button should be clickable and initiate the Twitter authentication flow.
Actual Result	"Sign in with Twitter" button was not clickable; tapping it produced no response.
Severity	**High**
Priority	**High**
Environment	Windows 11 (64-Bit), Google Chrome (Version 150.0.7871.187)
Screenshot	

BUG-06 (Chrome Extension)

Title	**Uploaded PDF file not visible in chat window**
Description	Uploading and sending a PDF via the attachment icon does not display any file card, thumbnail, or name in the chat window, though the AI still responds accurately based on the PDF's content.
Steps to Reproduce	1. Tap the attachment icon 2. Select and upload a PDF file 3. Send the message 4. Observe the chat window for the sent PDF
Expected Result	The uploaded PDF should appear as a visible file card/thumbnail in the chat, and the AI should respond based on its content.
Actual Result	The sent PDF file did not appear visually in the chat window (no file name, icon, or preview shown), though the AI responded accurately based on the PDF's content.
Severity	**Medium**
Priority	**Medium**
Environment	Windows 11 (64-Bit), Google Chrome (Version 150.0.7871.187)
Screenshot	

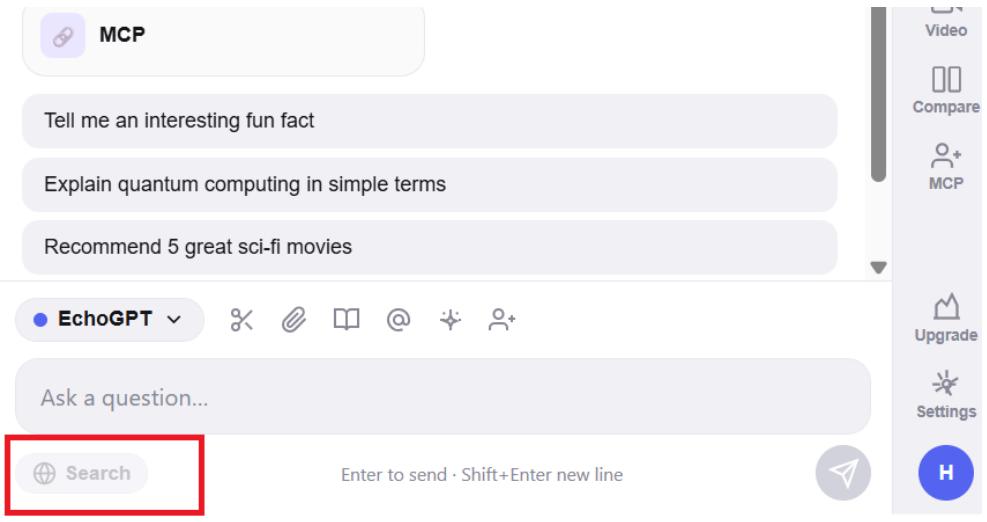

BUG-07 (Chrome Extension)

Title	**Subscribe Now popup card jumps/glitches uncontrollably**
Description	Clicking "Subscribe Now" opens a popup that continuously jumps/glitches on screen, preventing the user from interacting with it.
Steps to Reproduce	1. Open the extension 2. Click "Upgrade" button on the right side 3. Under "Affordable plans for every need," click "Subscribe Now" on the plan card 4. Once popup opens, observe its behavior for 5-10 seconds without clicking anything
Expected Result	Popup should remain stable/static without jumping or glitching.
Actual Result	Popup card kept jumping/glitching continuously on screen, position kept shifting.
Severity	**High**
Priority	**High**
Environment	Windows 11 (64-Bit), Google Chrome (Version 150.0.7871.187)
Screen Recording	*https://drive.google.com/file/d/1H-kr2WJ0GKONEAeeG8JRco0YqBREFnFX/view?usp=sharing*

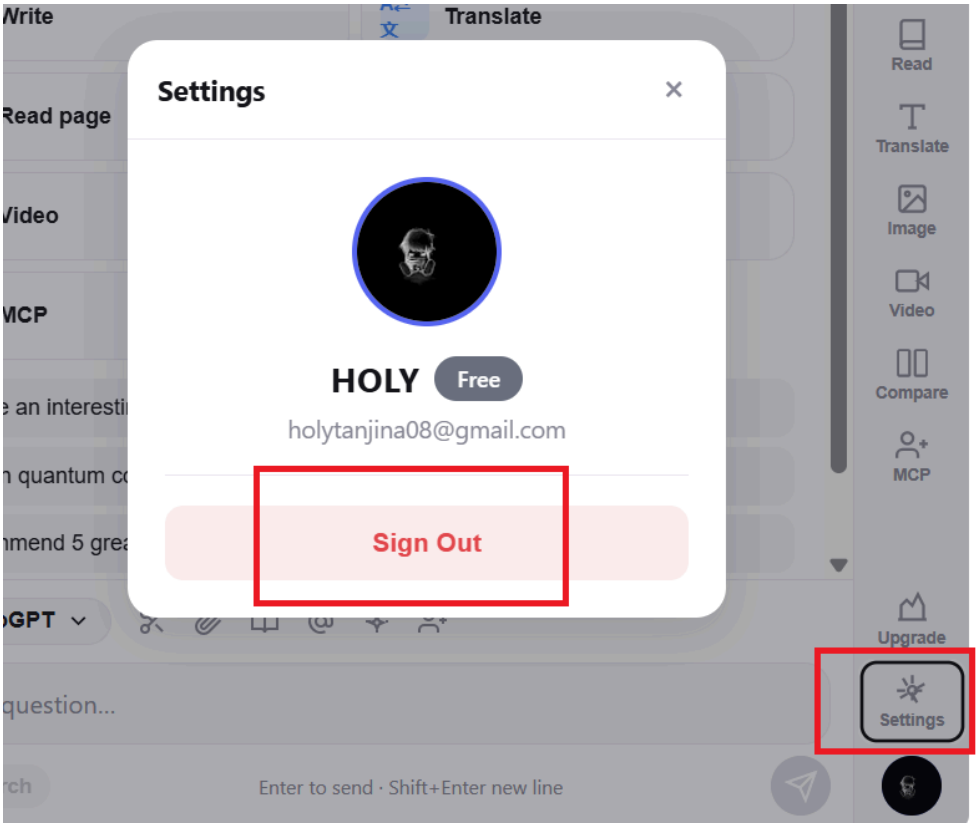

BUG-08 (Chrome Extension)

Title	**Cannot interact with options inside Subscribe Now popup due to glitching**
Description	The popup glitches so severely that none of the options/buttons inside it can be clicked.
Steps to Reproduce	1. Open the extension 2. Click "Upgrade" then "Subscribe Now" on the plan card 3. Once popup opens, try clicking on plan options/buttons inside the popup
Expected Result	User should be able to select/interact with options smoothly.
Actual Result	Could not click or interact with any option inside popup because it kept jumping/glitching continuously.
Severity	**High**
Priority	**High**
Environment	Windows 11 (64-Bit), Google Chrome (Version 150.0.7871.187)
Screen Recording	*https://drive.google.com/file/d/1H-kr2WJ0GKONEAeeG8JRco0YqBREFnFX/view?usp=sharing*

BUG-09 (Chrome Extension)

Title	**"Search" option in chat box is not clickable**
Description	The "Search" (globe icon) at the bottom-left of the chat box does not respond to clicks and does not toggle on/off.
Steps to Reproduce	1. Open the extension 2. Go to the chat box at the bottom 3. Observe the "Search" option (globe icon) on the bottom-left of the chat box 4. Try clicking on it
Expected Result	"Search" option should be clickable and toggle on/off, enabling web search functionality for the chat.
Actual Result	"Search" option is not clickable -- nothing happens on click.
Severity	**Medium**
Priority	**Medium**
Environment	Windows 11 (64-Bit), Google Chrome (Version 150.0.7871.187)
Screenshot	

BUG-10 (Chrome Extension)

Title	**"Settings" icon opens Logout popup instead of Settings page**
Description	Clicking the "Settings" icon on the right sidebar shows a Logout confirmation popup instead of the Settings page.
Steps to Reproduce	1. Open the extension 2. On the right sidebar, locate the "Settings" icon 3. Click on the "Settings" icon
Expected Result	Settings page should open, showing app configuration options.
Actual Result	Instead of Settings page, a Logout popup/screen is shown.
Severity	**High**
Priority	**High**
Environment	Windows 11 (64-Bit), Google Chrome (Version 150.0.7871.187)
Screenshot	

BUG-11 (Android App)

Title	**Deleted account's Google login shows "account disabled" message instead of allowing new account creation**
Description	After deleting an account, attempting to sign in again with the same Google account displays "Your account has been disabled, contact support" instead of allowing a fresh account to be created.
Steps to Reproduce	1. Use a Google account previously used for an account that was deleted 2. Tap "Continue with Google" 3. Select the same Google account used before deletion
Expected Result	User should be able to create a fresh new account with the same email after deletion.
Actual Result	App displayed "Your account has been disabled, contact support" message instead of allowing new account creation.
Severity	**Critical**
Priority	**High**
Environment	Realme 7i, Android 11 (Realme UI 2.0), EchoGPT App (Google Play Store version)
Screenshot
